

AGENDA 2024

The 11th Fall Research Meeting
Oslo, Norway, September 11th to September 13th.

WEDNESDAY, SEPTEMBER 11, 2024

12:00 LUNCH

13:00–13:15 WELCOME

Eva Stensland, Gwyn Bevan, David Goodman

13:15–14:45 SESSION 1: ECONOMICS // Zynep Orr and Jostein Grytten

- 13:15 Pairing Peer Comparison Feedback and Professional Norms to Reduce Low-Value Services in Primary Care – A Randomized Controlled Trial // Raf van Gestel
- 13:30 Time to Spare and Too Much Care? Congestion, Treatment and Health Outcomes in the Maternity Unit // Simon Bensnes
- 13:45 Does delayed response due to busy ambulances impact the risk of death and hospital service utilisation? A natural experiment involving 240 000 medical emergencies in Central Norway // Andreas Asheim
- 14:00 Does the Lack of Continuity of Care in General Practice Impact Service Utilization and Patient Outcomes? // Troels Kristensen
- 14:15 Geography, Education, and the Widening Divide in US Midlife Mortality // Jon Skinner
- 14:30 Discussion

14:45–15:00 BREAK

15:00–16:30 SESSION 2: LOW-VALUE CARE // Gwyn Bevan

- 15:00 De-adoption of healthcare interventions post-COVID: Evidence from the Evidence-Based Interventions (EBI) programme in England // William Hollingworth
- 15:15 Evaluation of a national de-adoption programme to reduce low-value care: evidence-informed recommendations to guide de-adoption of low-value surgery // Carmel Conefrey
- 15:30 Reducing low-value care and unwarranted variation through comprehensive person-centred medicines reviews; the iSIMPATY project experience in Scotland and Ireland // Ciara Kirke and Iain Wilson
- 15:45 Defining, measuring, and reducing low-value care from the system perspective – proposing a new comprehensive definition and framework // Dimitra Panteli and Katharina Achstetter
- 16:00 Low-value imaging: from concept analysis and imaging typology to definition // Bjørn Hofmann
- 16:15 Discussion

17:00 EXHIBITIONS AT THE MUNCH MUSEUM

We offer a short lecture (20 minutes) about the famous Norwegian painter Edvard Munch at the Munch Museum and afterwards you can explore the exhibitions on your own.

09:00–09:10 WELCOME

Gwyn Bevan

09:10–10:40 SESSION 3: GENERAL SESSION // Jon Skinner

- 09:10 An analysis of Emergency Department inappropriate admissions in the province of Bolzano (Italy) // Mirko Bonetti
- 09:25 Beyond Paychecks: Unraveling the Nexus of Nurse and Physician Wages and Mortality in Acute Care Settings – A Cross-Sectional Study using Routine Data // Jana Bartakova
- 09:40 What insights into health care variation can PROMs offer? // Catherine Gerard
- 09:55 More than the sum of the parts: when healthcare variation data and clinical care standards combine to support appropriate care // Gillian Giles
- 10:10 The Constructive Response to Practice Variation: Raise Decision Quality at the Front-lines of Care to Avoid Waste to the System, Harm to Patients, and Moral Injury to Professionals // Al Mulley
- 10:25 Discussion

10:40–11:00 BREAK

11:00–12:30 SESSION 4: LOW-VALUE CARE IN NORWAY // Eva Stensland

- 11:00 A national assignment on reducing low-value health care in Norway // Marit Herder
- 11:15 Reducing unwarranted variation – can a “clinical dashboard” be helpful for hospital executive boards and top-level leaders? // Ole Tjomsland
- 11:30 Public Sector Contracting of Private Somatic Healthcare: Enhancing Decision-Making with Registry Data// Asgeir Winge
- 11:45 Improving general practitioners’ (GPs’) referrals to radiology. Implementation of a mixed-method intervention consisting of clinical support system, group-based course and feed-back (VeRaVest) // Aslak Aslaksen
- 12:00 Intervention for reducing the overuse of upper endoscopy in patients <45 years: a protocol for a stepwise intervention programme // Mikkel Høiberg
- 12:15 Discussion

12:30–13:30 LUNCH

13:30–14:30 POSTERS

14:30–15:55 SESSION 5: NOVEL DATA AND DATA LINKAGE METHODS FOR HEALTH CARE EVALUATION // Therese Stukel

- 14:30 Examples of healthcare evaluation in Norway using national registries // Eva Stensland
- 14:45 Uncovering Unwarranted Variation in Real-Time with Norwegian Registry Data: Insights from the Pandemic and Future Perspectives // Kjetil Elias Telle
- 15:00 Implementation of a common data model in Canada to support cross-jurisdictional health services and outcomes research // Lisa Lix
- 15:15 Federated analysis of healthcare data: The Canadian Network for Observational Drug Effect Studies // Robert Platt
- 15:30 Discussion

15:55–16:15 BREAK

16:15–17:50 SESSION 6: GENERAL SESSION // Milo Puhan

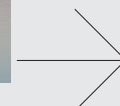

- 16:15 Explaining practice variation in induction of labor using a sociological model. Results of the VALID study // Anne Brabers
- 16:30 Race and Ethnic Disparities in Hospital of birth for Very Pre-Term Newborns // Cecilia Ganduglia Cazaban
- 16:45 Unlocking medical practice variations in the use of seclusion and mechanical restraint in mental healthcare in France: extent and contributing factors based on novel data // Esther Toutilou-Burckard
- 17:00 Improving regional comparative analysis of quality and efficiency using a needs-based population classification system (PopGrouper) // Chrissa Tsatsaronis
- 17:15 Access to Care Redefined: Integrating Physical and Virtual Access Measures to Reflect Hybrid Care with Telehealth // Tracy Onega
- 17:30 Discussion

19:30 CONFERENCE DINNER

Conference dinner at the Oslo Opera House, restaurant Havsmak (included in the conference fee).

08:30–10:10 SESSION 7: PUBLIC REPORTING // David Goodman

- 08:30 Welcome and A framework to consider public reporting with specific examples
// David Goodman
- 08:50 Light and Shadow of Public Reporting in Korea: 25 years of achievements and future challenge // Jin Young Lee
- 09:05 Public access to information from clinical quality registries in Norway // Eva Stensland
- 09:20 Reputation effects, identity economics & governance by reciprocal altruism
// Gwyn Bevan
- 09:35 Updating the Norwegian Child health care atlas – What has happened during the last nine years? // Hanne Sigrun Byhring og Tove Johansen
- 09:50 Discussion

10:10–10:25 BREAK

10:25–11:30 SESSION 8: GENERAL SESSION // Jin Yong Lee

- 10:25 Aeromedical Retrievals, Socioeconomic Disadvantage, Disease Burden, and Health Workforce across Rural and Remote South Australia // Marianne Gillam
- 10:40 Geographic Variation in the Utilization of Specialist Healthcare for Patients with Substance Use Disorder in Norway; a Population-Based Registry Study // Per Arne Holman
- 10:55 Understanding Variation in Broad-Spectrum Antibiotic Use for Community-Acquired Pneumonia: A Mixed Methods Study // Barbara Jones
- 11:10 Discussion

11:30–11:45 BREAK

11:45–12:50 SESSION 9: GENERAL SESSION // Gwyn Bevan

- 11:45 GPs' income variation in a fee-for-service system: a descriptive analysis using population-wide register data // Kristian Kraft
- 12:00 Assessing the value of health and social services system at the national level
// Georges-Charles Thiebault
- 12:15 Is geographical variation in the place of death a relevant measure in rural communities?
// Michael Lioynd
- 12:30 Discussion

12:50 CONFERENCE WRAP UP

13.00 LUNCH
